## About

Project part 1 of 2: Music of the sea

I am the Executive Director of a 501(c)(3) non-profit, Maximum Impact Media, Inc. All funding by donors represents a charitable tax donation. Neither I, nor the Board of Directors, receive a salary. All of the funding goes to pay for chartering Christeen, an Oyster sloop to video "B" roll for a "Music of the Sea" Project.

It would be exciting to have 3D video of a historical Oyster sloop in Oyster Bay, Long Island, where Gathering Time has been noted as the #1 folk-rock band. In a related project, we hope to have Gathering Time perform on the USS Constellation in Baltimore, MD. With this funding, we hope to combine the excitement of 3D video on various historical maritime vessels and activities, with the talent of this trio who deserve recognition in their own right.

[Learn about the Christeen here.](#)

You can see this talented band in a live performance at the World Folk Music

### Gathering Time WFMA 2018 showcase trailer

Gathering Time has recorded the song, "Mingulay Boat song."

The CD and DVD will include this song and other songs about the sea as a music bed to the video besides performance footage of the band. In addition to traditional sea songs, the video may include contemporary folk-rock musicians such as Sandy Denny, Fotheringay, Strawbs, Fairport Convention, Amy McCann,

Tom Paxton, Dave Cousins, Trees, Stan Rogers, Steeleye Span, and The Once, and pop musicians, John Butler, Lou Reed, Morcheeba, the Byrds, Grand Funk Railroad, and CSNY. The sloop video represents "B" roll to augment the story in the songs. Mini-documentaries with the story behind the song are planned to be interspersed between each song.

We have 2 Panasonic AG-3DA1 cameras which natively shoot 3D video. I haven't found any 3D stock footage of Gettysburg.

The cost to charter the Christeen is \$850. There is an additional cost to rent a motor boat to video outside the sloop.

If the funding over-reaches the target amount of \$1650, then extra funds would be used towards renting the USS Constellation for a live performance by Gathering Time, and DVD replication and packaging. Anything beyond those funds would go to the non-profit's activities. Rest assured, there is transparent reporting to governmental agencies as it is a charity. No funds go to any of my personal use. The funds would be well spent on educational and charitable activities.

Just to have all business clear, the recordings will remain the property of Maximum Impact Media, Inc., with all rights reserved. Backers will only receive their reward item.

We are experienced at producing multi-cam 2D and 3D videos. We are also experienced at producing DVDs. Aside from funding the license to video the reenactment, there is great potential for the project to succeed resulting in donors receiving their rewards.

If Gathering Time cannot subsequently be involved with this project then another band of equal talent will be found to complete the project.
